COACH BY COLOR (USER)

# WATTRATE<sup>®</sup> LCD COMPUTER

The WattRate<sup>®</sup> LCD computer features a fully integrated LCD screen with a permanent backlight function. An LED indicator located above the LCD display provides the user the option to apply Coach By Color. The screen displays a wealth of valuable training data such as watts, heart rate, rpms, exercise duration and resistance level.

## APP CONNECTIVITY

The computer uses its inbuilt technology to send ride data to external devices, applications and ICG<sup>®</sup> Connect via Bluetooth<sup>™</sup> or ANT+.

# WATTRATE<sup>®</sup> POWER METER

The WattRate<sup>®</sup> Power Meter displays a precise measurement of the user's effort in watts. This precision is achieved by using the patented flywheel run down technology and while riding, a positioning sensor measures the resistance applied to the magnetic brake system.
